

PERSPECTIVAS EXHIBITION

Design Brief

The Perspectivas Exhibition is an open exhibition designed to provide a platform for Latinx participants to showcase their work, connect with other professionals, and contribute to a vibrant cultural dialogue celebrating Latinx design across Texas.

This exhibition is open to all Latinx architects, designers, creatives, and students across Texas. Team collaborations, and firms are welcome to participate.

While all projects submitted in accordance with the exhibition requirements will be exhibited, participants are encouraged to submit their best work for a chance to win an excellence award. Four awards will be announced during the exhibition:

Award Categories

All submissions will be recognized in the following categories. A selected judging panel will review each project anonymously and vote for the winner of each category.

Best Built Project

Constructed projects evaluated on architectural design, construction quality, functionality, innovation, and integration into the environment.

Best Conceptual Project

Visionary or theoretical designs evaluated on creativity, originality, and potential impact.

Community Impact Award

This category applies to projects with a clear intention and strong proposal to address pressing environmental or social justice issues.

People's Choice Award

Voted on by attendees during the exhibition.

Judging Process

All submissions will be judged anonymously by a panel of esteemed professionals.

Winners will be selected based on

- creativity
- innovation
- clarity and execution of concept

To ensure a fair and unbiased judging, all digital submissions will be digitally marked to cover participant names, company information, or logos for our judge panelist.
